dear sir.i as a consumer do not feel that you are being fair about the advatages we have with the xm radio.it not only gives us great music from coast to coast without having to change chanel's but also great reports on traffic and weather which are very important to me since i travel coast to coast delivering freight in a truck. the reports i get enable me to plan my trips even better since i know what the weather and traffic are doing where my delivery is there for i can make decisions sooner about whether to stop and take a brake,change rougths,or go ahead and make my deliveries a lot sooner than i could before. i hope you see that the xm radio has been a great improvement expecially to the trucking industry in this way and think it would be a great loss for this to be taken away from us now. JOSEPH BOYD[SOUTHERN SOLDIER]
